

The trusted leader of nursing & personal support services

At home or in a health care facility

Since 1981, S.R.T. MedStaff has been a trusted leader in the health care community providing a comprehensive range of Nursing and Personal Care Services. We have built a reputation for excellence in quality of care and delivery of service.

Our people are in high demand. Hospitals and clients know they can trust S.R.T. MedStaff to provide an exceptional level of care and personal attention.

These same trusted professionals are also available to care for your loved ones in the comfort and privacy of their own homes or during their stay in a health care facility.

For more information about joining the S.R.T. MedStaff team or to arrange for a personal interview, please call.

Home care services when you need them

Home Care Services include everything from complex nursing care to respite care, depending on your needs. S.R.T. MedStaff will provide the care and services you require at home or in a health care facility.

Care starts the minute you call

S.R.T. MedStaff will provide you with a complimentary consultation to determine the level of care you or your family member may need. This initial consultation is provided at no cost, regardless of whether you choose S.R.T. MedStaff as your care provider or not.

The best quality of care

S.R.T. MedStaff's hiring standards are the strictest in the industry. We take great care in ensuring the quality and competency of our staff and hire only highly skilled, experienced individuals.

Each applicant is carefully screened and referenced to ensure they meet S.R.T. MedStaff standards. S.R.T. MedStaff ensures that your loved one is cared for by the right person with the right skills.

Linguistic or cultural sensitivities will also be taken into consideration. Our supervisors continuously monitor and assess each individual case to ensure the right care is provided at the right time.

Not all personal care is a personal expense

Many of our services are funded by the government, or by insurance or community organizations. We will develop a Personal Care Plan to assist you in determining what services are required and if those services are funded.

If some required services are not funded, S.R.T. MedStaff will work with you to develop a plan that helps meet your needs without taxing the family's resources.

S.R.T. MedStaff provides:

- Registered nurses
- Registered practical nurses
- Personal support workers

A full range of comprehensive and specialty nursing services:

- Post-operative care
- Rehabilitation
- Palliative care
- Paediatric care
